## **Eight-Year Plan for Delivery of Academic Programs**

The State Board of Education has adopted, through Board Policy III.Z., a comprehensive planning process for the coordination and delivery of postsecondary education. The Eight-Year Plan outlines the programs institutions have identified they will be pursuing for the ensuing eight years. The plans are updated every two years. It is intended that the plans provide guidance to the State Board of Education in the creation of funding and capital budget proposals.

As these programs are developed, institutions must follow procedures outlined in Board Policy Section III.G. to acquire Board approval prior to implementation. If the program is to be delivered outside the institution's immediate region, a Memorandum of Understanding (MOU) must be developed and agreed upon in cooperation with the Board's Chief Academic Officer prior to implementation.

The Eight-Year Plan of proposed programs divides academic programs by statewide and regional distribution. The state is divided into four regions: north, southwest, southeast, and south central.

The Program Inventory displays programs approved by the State Board of Education and that are currently being offered at Idaho's postsecondary institutions. The list is divided into the four regions. Programs are listed alphabetically by institution. The list includes programs and degrees offered through various departments and colleges.

### **Statewide Mission**

In accordance with Board Policy III.Z.1.(a), a statewide mission denotes that the institution is assigned by the Board to offer and deliver a program in order to meet a particular educational and workforce need in all regions of the state. A statewide mission describes an institution's responsibility for instructional programs that are unique with regard to academic focus. A unique program or course is defined as an academic or vocational program or course, which is offered by and available at only one of the institutions under the governance of the Board. Statewide missions are assigned to institutions by the Board through the role and mission statements.

### **Regional Mission**

In accordance with Board Policy III.Z.1.(b), a regional mission describes an institution's responsibility for instructional programs pertaining to identified educational and workforce needs of primary service regions (identified in *Section III, Subsection L. of the Idaho State Board of Education Governing Policies and Procedures*). Because similar educational and workforce needs may exist in multiple service regions, programs that are part of an institution's regional mission may be duplicated by other institutions within other service regions.

The Council on Academic Affairs and Programs (CAAP), in conjunction with each institution's statewide mission, created the following list for each institution.

## **Lewis-Clark State College**

### Type of Institution

Lewis-Clark State College is a regional state college offering undergraduate instruction in the liberal arts and sciences, professional areas tailored to the educational needs of Idaho, applied technical programs which support the state and local economy, and other educational programs designed to meet the needs of Idahoans.

Lewis-Clark State College will formulate its academic plan and generate programs with primary emphasis in the areas of business, criminal justice, nursing, social work, teacher preparation, and vocational technical education. The College will give continuing emphasis to select programs offered on and off campus at non-traditional times, using non-traditional means of delivery and serving a highly diverse student body. Lewis-Clark State College will maintain basic strengths in the liberal arts and sciences, which provide the core curriculum or general education portion of the curriculum.

## **Eastern Idaho Technical College**

### Type of Institution

Eastern Idaho Technical College is a two-year regional, technical college that also offers limited statewide services and embraces an open-door policy for all citizens.

Eastern Idaho Technical College will formulate its instructional plan and generate programs with primary emphasis on technical programs, customized industry training and retraining, developmental and basic skills instruction, workforce and community education, economic development and distance education. Eastern Idaho Technical College provides a wide range of student services to support instructional programming and enhance student success.
